The cable grommets of the 1919.SPG.M series allow a large number of cables to be fed through without connectors within the split frames of the 1910 series. The cable is simply pushed through the front membrane, while the second membrane provides better strain relief and IP protection.

- Membrane grommets for cables without connectors
- High number of usable cables
- UL 94 V-0
- Strain relief according to EN62444
- Colour grey
