

## Product datasheet:

# Clamping collar for conduit

## Heavy conduit clamp RQM

|                     |               |
|---------------------|---------------|
| Article number:     | 0308.000.021  |
| EAN:                | 7611614094113 |
| Packaging quantity: | 50            |

### Dimensions / Form

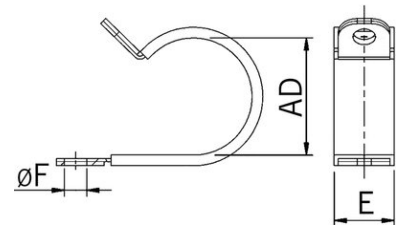

|                      |        |
|----------------------|--------|
| Ø F:                 | 6.4 mm |
| Measurement value E: | 18 mm  |

### Features

|             |                                                                                                                   |
|-------------|-------------------------------------------------------------------------------------------------------------------|
| Properties: | Without halogen (rubber profile), good resistance to mechanical stress, good resistance to weather, ozone and age |
|-------------|-------------------------------------------------------------------------------------------------------------------|

### Storage / Installation / Operation

|                                |        |
|--------------------------------|--------|
| Minimum operating temperature: | -40 °C |
| Maximum operating temperature: | 120 °C |
