

Product datasheet:

AGRO Wood System

Article number:  **4441.01**

E-No: 155111039

EAN: 7611614510309

Packaging quantity: 15

Connections / Entries

Type of entry: conduit connection piece

conduit retention: Yes

Assembly / Installation

Room boundary type: Wooden modular/room cell construction

Installation type: Classic wiring/assembly

Assembly type: HW (drywall/lightweight construction)

Room delimitation type Design: Wood (frame) construction

Installation: Horizontal / Vertical

Device fastening in/on box/housing: Screw attachment

Safety / Properties

Special application: Modular and prefabricated houses

Features

Design: 1-fold

Expandability/Combinability: No

Integrated accessories: Without

Optional accessories: Cover

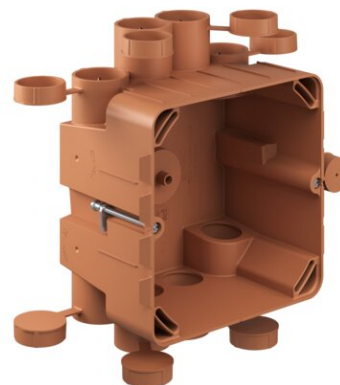

Material / Colour

Colour: brown

Surface: untreated

Approvals / Certifications

Glow wire test: 850° C

The use of prefabricated timber panels in building construction is booming, and with it, the demand for well-designed, time-saving solutions to facilitate electrical installation work. This is where the new AGRO Wood system comes in. The products are perfectly tailored to timber frame construction, helping to maximise efficiency in panel prefabrication and on the construction site.
