

Product datasheet:

Facing concrete prena slabs 2x2

Facing concrete prena slabs

- For exposed concrete
- Neoprene seal for flexible sealing edge
- self-adhesive on one side

Article number:	9902.24.10
E-No:	155911555
EAN:	7611614437675
Packaging quantity:	5

Dimensions / Form

Product length:	138 mm
Product width:	138 mm
Product depth:	2 mm

The solution for exposed concrete!

The specially developed prepa plates made of 2 mm thick neoprene enable a clean transition when finishing between the concrete and the installation box. The plates prevent sanding out and discolouration by preventing concrete from flowing underneath. The Prenap panels have a strong adhesive surface on one side, which is glued to the junction boxes. This prevents the panels from slipping during the concreting phase.

- prevents concrete from flowing underneath, avoids discolouration and sanding out
- for ceilings and walls
