

Product datasheet:

Facing concrete prena slabs 4x1

Facing concrete prena slabs

- For exposed concrete
- Neoprene seal for flexible sealing edge
- self-adhesive on one side

Article number:  **9902.24.40.10**

E-No: 155911455

EAN: 7611614437668

Packaging quantity: 5

Dimensions / Form

Product length: 258 mm

Product width: 78 mm

Product depth: 2 mm

The solution for exposed concrete!

The specially developed prepa plates made of 2 mm thick neoprene enable a clean transition when finishing between the concrete and the installation box. The plates prevent sanding out and discolouration by preventing concrete from flowing underneath. The Prenap panels have a strong adhesive surface on one side, which is glued to the junction boxes. This prevents the panels from slipping during the concreting phase.

- prevents concrete from flowing underneath, avoids discolouration and sanding out
- for ceilings and walls
