

Product datasheet:

Signal cover UP¹ for installation openings Ø 60 mm

Signal cover UP¹

- Reusable
- Protects interior of box, screwing dome and screw heads when plastering

Article number:  **1181-65**

EAN: 4013456587502

Inner packing / Packaging quantity: 50 / 1000

Price group: 110

Dimensions / Form

Cover for box/housing/casing Ø: 60 mm

Assembly / Installation

Assembly type: UP (solid construction)

The signal cover for the new UP¹ flush mounting boxes protects the inside of the box and the screw domes during plastering, while the tried-and-tested signal bristles make it easier to find them after plastering. The soft signal bristles gently wrap around and prevent splashing when cleaning.

- Protects interior of box, screwing dome and screw heads when plastering
- Signal bristles facilitate finding after plastering
- Soft signal bristles gently wrap around and prevent splashing when plastering
- Reusable
