REACH declaration

Restriction of the use of certain hazardous substances in accordance with REACH Regulation (EC) No. 1907/2006

On 1 June 2007, Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals ("UREACH" for short) came into effect. As a downstream user, Plastic Color does not register chemicals and does not inform the ECHA about the use of chemicals. We insist that our suppliers and their supply chain act in accordance with REACH.

You only purchase non-chemical products (articles) from us. In addition, no substance should be released from the products you purchase under normal and reasonably foreseeable conditions of use.

The materials we use comply with the valid guidelines of the REACH regulation and fulfil the legal regulations for placing substances on the market.

We can confirm that all products supplied by Plastic Color, with reference to the REACH Directive of Regulation (EC) No. 1907/2006 (REACH) - fulfil the requirements of the Regulation and do not contain any hazardous substances subject to registration according to Annex XVII or any substances subject to declaration (SVHC) according to Art. 33.

Please understand that due to the large number of our products and the complexity of the subject matter, we are unable to answer customer-specific forms.

With kind regards,

Erembodegem 19.02.2024
Yves Baekelandt, Managing Director:
