

Product datasheet:

B¹ large conduit ceiling junction box - Ø 60 mm

B¹ ceiling junction box

- Rear part of box with holder for light hooks according to DIN EN 60670 (50 N)
- 2-piece with moulded rear part
- Suitable for all types of formwork
- Usable light hooks:
- 100 mm / Art. No. 1225-10
- 120 mm / Art. No. 1225-12
- 140 mm / Art. No. 1225-14

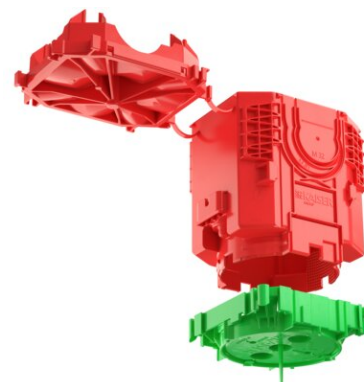

concrete construction, B¹ large conduit ceiling junction box, 2-part, installation opening Ø 60 mm, depth 110 mm, with light hook slot

Large conduit ceiling junction box for concrete construction installation, on-site mixed concrete, fixing to formwork

Concrete construction box, designed as a large conduit ceiling junction box for concrete construction in accordance with DIN EN 60670/VDE 0606 and DIN 49073, made of plastic

Exit opening Ø 60 mm, length 94 mm, width 75 mm, depth 110 mm, with slot for light hooks according to DIN EN 60670 (50N), front part can be swung out with signal bristle, with 4 screw domes, without device screws

Combination entries with break-out openings for electrical installation conduits (3 x 32 mm/40) and entry markings for cables and electric cables (3 markings up to Ø 16 mm), protection class IP 30 according to DIN EN 60529, flame-retardant according to DIN EN 60695 up to 650° C, halogen-free according to DIN VDE 0604-2-100, for concrete construction installation using on-site mixed concrete

Assembly instructions

Technical information

Planning data

Article number:	1260-11
EAN:	4013456551411
Inner packing / Packaging quantity:	20 / 100
Price group:	130

Dimensions / Form

Product length:	94 mm
Product width:	75 mm
Product depth:	110 mm
Cover for box/housing/casing Ø:	60 mm

Connections / Entries

Number of entries:	3
For conduit Ø:	40 mm
Wire entry Ø max.:	16 mm

Assembly / Installation

Assembly type:	BB (solid construction)
----------------	-------------------------

Safety / Properties

Special application:	on-site mixed concrete
----------------------	------------------------

Product datasheet:

Approvals / Certifications

VDE:	Yes
------	-----

The new B¹ ceiling boxes simplify installation on the ceiling formwork. The innovative conduit entries enable conduits to be easily inserted into several ceiling boxes arranged in a row without having to cut them during the laying work. Due to the conduit entries located higher up, additional cut-outs of the reinforcement bars are unnecessary, ensuring fast insertion of the empty conduits on the ceiling.

- Suitable for all types of formwork
- Flat front part enables smooth insertion of the reinforcing bars on the ceiling formwork
- Innovative conduit entries for fast processing on the construction site
- Larger mounting and installation space
- Mounting of a light hook in accordance with DIN EN 60670
- The proven KAISER colour coding system ensures that the installation can be checked quickly
