PFAS-Statement

We, the KAISER company, hereby declare that, to the best of our knowledge and belief, we ensure that our products do not contain any perfluorinated and polyfluorinated alkyl compounds (PFAS). Our company is committed to complying with applicable legal regulations and to continuously improving our environmental and product safety standards.

Based on the information and data currently available to us from our suppliers, we assume that our products are free from intentionally added PFAS. However, a complete guarantee or chemical analysis of all ingredients cannot be given with absolute certainty at present due to the complexity of global supply chains and possible trace impurities.

However, we assure you that we are taking all reasonable measures to identify and exclude potential PFAS sources.

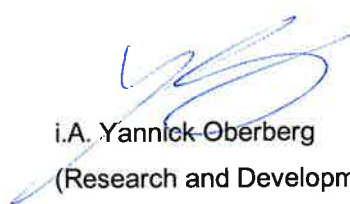

If you have any further questions, please let us know. We will be glad to help you.

Kind regards,

KAISER GmbH & Co. KG
