

## Product datasheet:

# B<sup>1</sup> Prefix® system wing bracket set

## B<sup>1</sup> Prefix® system wings

- Facilitates fixing to the reinforcement
- Pre-fixing by means of B<sup>1</sup> Prefix® installation technology
- Can be used for the following articles:
  - B<sup>1</sup> device socket
  - B<sup>1</sup> device connection socket
  - B<sup>1</sup> large-conduit device connection socket
  - B<sup>1</sup> electronics socket
  - B<sup>1</sup> two-device connection socket
  - B<sup>1</sup> wall light connection socket
  - B<sup>1</sup> universal wall outlet
  - B<sup>1</sup> Prefix® adapter - Ø 20, Ø 25 and Ø 32 mm

concrete construction, Prefix® system wing set, 103 x 49 x 36 mm  
 Prefix® system wing set, for concrete construction installation, on-site mixed concrete  
 Prefix® system wing set for installation as opposing formwork without support  
 elements, made of plastic, for fixing wall boxes or wall-ceiling transitions 30° to the  
 reinforcement, for concrete coverings 20 mm to 60 mm, with mounting clips for pre-  
 fixing  
 Length 103 mm, width 49 mm, depth 36 mm, flame-retardant according to DIN EN  
 60695 up to 650° C, halogen-free according to DIN VDE 0604-2-100, for concrete  
 construction installation, on-site mixed concrete

### Dimensions / Form

|                 |        |
|-----------------|--------|
| Product length: | 103 mm |
| Product width:  | 49 mm  |
| Product depth:  | 36 mm  |

### Assembly / Installation

|                         |                         |
|-------------------------|-------------------------|
| Minimum concrete cover: | 20 mm                   |
| Max. concrete cover:    | 60 mm                   |
| Assembly type:          | BB (solid construction) |

### Safety / Properties

|                      |                        |
|----------------------|------------------------|
| Special application: | on-site mixed concrete |
|----------------------|------------------------|

The B<sup>1</sup> Prefix® system wing allows fast, easy fixing to the reinforcement. This means optimal installation on the opposing formwork side and for free-standing reinforcement, and also for sliding or travelling formwork constructions. All wall applications in the new B<sup>1</sup> range have slots for the locking of two Prefix® system wings. This ensures fast, easy installation on the opposing formwork side.

- Fast and easy installation on opposing formwork without support element and abutment
- Holding in place using the Prefix® installation technology leaves both hands free for securing with tie wires
- A pronounced corrugated profile and additional fixing opportunities for secure fixing

## Product datasheet:

- using tie wires
- Combinable when using wall and ceiling transitions
- For installation in exposed concrete, pressed against the front formwork
- Suitable for 20 - 60 mm concrete covers
