

KAISER ConfiX

Your custom building distributor – in just 6 steps!

1

Sign up & register

To use the configurator, simply visit:

www.confir.kaisergroup.com

Start screen

2

Left: Answer key questions about your project and receive an initial configuration suggestion.

Right: Start without pre-configuration – begin your project with an empty FlexBox Connect (without side panels).

Configuring the FlexBox Connect

Adding components:

Simply drag and drop products from the list on the left into the FlexBox Connect in the center.

Removing components:

The trash can icon to remove items.

Save:

Easily save your FlexBox Connect using the buttons on the right.

Save & export

6

Parts list:

Your final bill of materials, including a technical drawing, will be sent to you via email.

Export:

To export, you must first create a user account – that's the only way we can send your configuration!
