

Product datasheet:

Hybrid FiberManagement Box (48v) 192ANT / 4mm WC with KPN lock

Hybrid FiberManagement Box

- 48 hybrid entry ports Ø 3,0 - 8,0 mm.
- Flexibility in the FTTX concept.
- Flexibility in fiber network management.
- Integrated strain relief per cable / duct.
- Easy entry seal for each individual cable or duct.
- Structured management of cables, fibres and welding protectors.
- Suitable for direct buried customer cables and ducts
- Easy to install.
- Save on working time
- IP65 Waterproof
- Impact-resistant.
- Window Cut.
- FiberManagement Box + KPN lock

Article number:  **AT29374**

EAN: 8712259520070

Features

Number of fibres (max.): 192

Approvals / Certifications

Protection class: IP65

ETIM Product classification: Distributor for telecommunication

Model: Distributor enclosure

Mounting method: Surface mounted

With connecting lugs: No

Max. number of dual cores:

Mounting dimension (standardised): Other

110-compatible: No

LSA: No

SID:

Material: Plastic

Degree of protection (IP): IP65

Degree of protection (NEMA):

Colour: Grey

Height: 380 mm

Width: 220 mm

Depth: 130 mm

Number of mountable connection strips:

Assembly instructions

Technical information

Product datasheet:

DIN-compatible:

Compatible with Grade2TV according to
XP-C 90-483:

Compatible with Grade3TV according to
XP-C 90-483:

Attema's Fiber Management Box (FM Box) is an above-ground distribution point (DP) that has been specially developed for at most 48 so-called Fiber-to-the-Home subscriber connection cables or ducts. For the splice mechanic the working method for sorting, splicing and storing the fiberglass cables is the same as for Attema's well-known underground Fiber Management Plate(FMP). Thanks to the pre-assembled parts, the compact format, the supplied suspension bracket and the ease of assembly, the FM-Box is excellent suitable to use in the Attema street cabinet as well as in interior technical rooms. The FM Box is also available with a lock and a Window Cut.
