

## Product datasheet:

### Conduit entry UHW/UMD, dual, Ø 16-19/20mm

#### Flush-mounted boxes Hollow-wall

- Drill hole diameter 48 mm.
- Easy pre-installation at working height.
- Integrated strain relief.
- Dust- and insect-proof.
- Universally applicable, regardless of the brand or type of notification system.
- Pre-formed screw holes for quick and secure installation.

**Article number:** **AT1540**

**EAN:** 8712259602790

**Packaging quantity:** 50

#### Assembly / Installation

**Assembly type:** HW (drywall/lightweight construction)

Attema has a complete range of flush-mounted boxes for hollow walls. Such as fire and smoke resistant flush-mounted boxes, radiation resistant boxes and various inserts, making the boxes also suitable for applications where high(er) demands are made on the air and sound tightness of the walls. Part of the range are hollow wall flush-mounted boxes that are suitable for mounting with different kind of cables, so that they can be used in pluggable installations in utility and residential construction. A good example of this is the Installation 2.0 concept, in which the installation time is greatly reduced and the chance of errors is reduced to a minimum.
