

Product datasheet:

Support connector

One-gang junction box for radiation protection walls

- For fully insulated through-wiring in combinations
- for Art. No. 9074-01

Article number:	9060-74
EAN:	4013456537408
Inner packing / Packaging quantity:	25 / 100
Price group:	192

Assembly / Installation

Assembly type:	HW (drywall/lightweight construction)
----------------	---------------------------------------

Safety / Properties

Special application:	radiation protection
----------------------	----------------------

KAISER's innovative radiation protection box protects against radiation used for medical purposes, e.g. in X-ray facilities. The high density of the radiation protection compound absorbs soft and hard X-rays. The box is especially suitable for lead-free radiation protection walls (e.g. Knauf Safeboard) and - because of its dose-reducing effect in the tube voltage range between 40 - 150 kV - guarantees a lead-equivalent value for the wall of up to 3 mm Pb even with opposing installation.

- Protection against X-rays
- Suitable for lead-free radiation protection walls
- Lead-free - no health risks
- Retrofitting is possible
- Fast installation without additional screening measures
- Opposing installation is possible
- Maintains the wall's sound insulation protection
