

Product datasheet:

Conduit transition fitting M20/25

Conduit transition fitting for flexible corrugated plastic (KRFG) conduits

· For both conduit sizes

Article number:	↻ 4530
E-No:	126589052
EAN:	7611614222738
Packaging quantity:	50

Dimensions / Form

Product length:	61 mm
Product width:	78 mm
Product depth:	75 mm

Connections / Entries

For conduit Ø:	25 mm
----------------	-------

Assembly / Installation

Assembly type:	BB (solid construction)
----------------	-------------------------

Safety / Properties

Special application:	on-site mixed concrete
----------------------	------------------------

The transition fitting for KRFG conduits accepts either an M20 or an M25 conduit (n the same entry) and anchors it securely against being pulled out. When inserting conduits into the fitting from beneath the ceiling, the non-concentric entry hole for the M20 conduit enables conduits of both sizes - M20 or M25 - to be kept close to the wall as they enter the fitting.

- Only one article (item) for conduit sizes 20/25 mm - flush-mounted / surface-mounted
- Optimal in the case of heavy reinforcement
- Wall-mounted conduits - either 20 mm or 25 mm - can be inserted without an offset from the wall
