

Product datasheet:

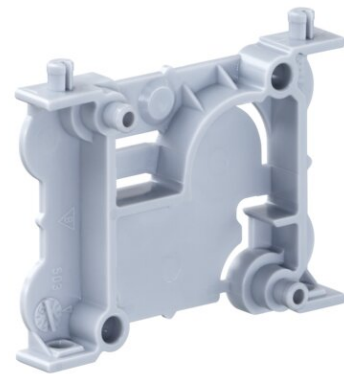

Abutment without special adhesive

Extension element 10/50 mm

- for fitting of overhead one-gang junction boxes at greater heights
- for fixing to formworks

Concrete construction, counter bearing for adhesive attachment, 1-piece
Counter bearing for concrete construction installation, precast concrete, adhesive attachment on steel formwork

Counter bearing for installation of overhead B2 one-gang junction boxes in conjunction with the extension element (1261-10) or the universal extension elements (1261-08, 1261-09), with push-button connection, installation height (horizontal 10 mm), flame-retardant according to DIN EN 60695 up to 650° C, halogen-free according to DIN VDE 0604-2-100, for precast concrete construction installation

Article number:  **1261-11**

EAN: 4013456151116

Packaging quantity: 50

Price group: 140

Assembly / Installation

Assembly type: BB (solid construction)

Safety / Properties

Special application: precast concrete

Extension element for bridging wall thicknesses and supporting one-gang boxes during installation on the opposing formwork. Bridging of up to 100 mm (plus box dimensions) can be underpinned securely in increments of 10 or 50 mm.

- For installation of overhead one-gang junction boxes
- Fitting height: vertical 50 mm, horizontal 10 mm
- can be attached to one-gang junction boxes or abutment using push-stud conduit connector
- Clip the connector into place, insert the conduit into the connector.
