

Product datasheet:

48.5 mm extension element for system magnet

48.5 mm extension element for system magnet

- for installation of overhead B² one-gang junction boxes
- Slot for system magnet (Art.-No. 1299-69) and system magnet PLUS (Art.-No. 1299-70)
- Standardised combination distance 71 mm
- Can be used for the following articles:
- B² one-gang junction boxes / Art. No. 1262-XX, 1263-XX, 1264-XX
- 10 – 50 mm extension element / Art. No. 1261-10
- Universal extension elements / Art. no. 1261-08/-09
- Flat 45 one-gang box / Art. No. 1256-01
- Flat 45 one-gang junction box / Art. No. 1266-01
- Flat 45 wall light connection box / Art. No. 1246-01
- Can be combined with the following items:
- B² one-gang junction box / Art. No. 1262-XX, 1263-XX, 1264-XX
- B² distance piece 142 / Art. No. 1261-18

concrete construction, extension element 48.5, with slot for system magnet, 1-piece, depth 48.5 mm

Extension element for concrete construction installation, precast concrete, fixing to steel formwork using system magnet (1299-69 or 1299-70)

Extension element for the installation of overhead B2 one-gang junction boxes in conjunction with the extension element (1261-10) or the universal extension elements (1261-08, 1261-09), with push-button connection, installation height 48.5 mm, flame-retardant according to DIN EN 60695 up to 650° C, halogen-free according to DIN VDE 0604-2-100, for precast concrete construction installation

Planning data

Article number:	⇒ 1261-02
EAN:	4013456588479
Packaging quantity:	100
Price group:	140

Assembly / Installation

Assembly type:	BB (solid construction)
----------------	-------------------------

Safety / Properties

Special application:	precast concrete
----------------------	------------------

The new 48.5 mm extension element for precast concrete enables automated positioning and fixing of overhead electrical installations in solid concrete walls as well as double concrete walls. The integrated slot for the system magnets (Art. No. 1299-69) and system magnet PLUS (Art. No. 1299-70) offers a safe, formwork-flush fit on the horizontal steel formwork for the circulation systems used in the concrete plants. At the same time, the tried-and-tested B² push-button connection ensures a secure connection to all B² one-gang junction boxes and B² extension elements and thus enables overhead installation from a wall thickness of 100 mm.

- Slot for system magnet (Art.-No. 1299-69) and system magnet PLUS (Art.-No. 1299-70)
- For use in automated production lines
- Push-button connection to all B² one-gang junction boxes and B² extension elements
- Can be combined with itself, the B² one-gang junction boxes and distance piece 142
- Integrated closing cap to protect the rear of the system magnet
- Spacers at the front ensure complete flow around the recess
- After formwork removal, the system magnet remains on the formwork table
