

Product datasheet:

B² one-gang junction box with plaster skin, depth 68.5 mm

B² one-gang junction boxes

- for in-factory installation
- Fastening to the formwork by means of KAISER adhesive foil (Art. No. 1219-00) or hot glue
- 4 screw domes and 2 expanding claw fields for accessory fitting
- Standardised combination distance 71 mm
- 1-piece

Concrete construction B² one-gang junction box, with plaster skin, 1-piece, depth 68.5 mm

One-gang junction box for concrete construction installation, precast concrete, adhesive attachment on steel formwork

Concrete construction box, designed as a concrete construction one-gang junction box in accordance with DIN EN 60670/VDE 0606 and DIN 49073, made of plastic, with plaster skin

Installation opening Ø 60 mm, length 77 mm, width 76 mm, depth 68.5 mm, conduit entry by punching with conduit connector, with integrated conduit retention, front part can be swung out, can be connected in series in a combination distance of 71 mm torsion-proof, fully insulated cable transition, with 4 screw domes and 2 expanding claw fields, without device screws

Insertion markings for electrical installation conduits (8 x 20/25 mm), Insertion markings for electrical installation conduits (4 x 16 mm) and insertion markings for cables and electric cables (12 markings up to Ø 16 mm), protection class IP 30 according to DIN EN 60529, flame-retardant according to DIN EN 60695 up to 650° C, halogen-free in accordance with DIN VDE 0604-2-100, for concrete construction installation precast concrete

Certificates

Technical information

Planning data

Article number:  **1263-60**

EAN: 4013456142688

Packaging quantity: 100

Price group: 140

Dimensions / Form

Product depth: 68.5 mm

Cover for box/housing/casing Ø: 60 mm

Connections / Entries

Number of entries: 12

For conduit Ø: 25 mm

Assembly / Installation

Assembly type: BB (solid construction)

Safety / Properties

Special application: precast concrete

Approvals / Certifications

VDE: Yes

Product datasheet:

B² system for installation in horizontal precast concrete. All installation requirements can be met with just a few components. The one-gang boxes are self-adhesive and the accessories provide a practical product range.

- Extremely time-saving
- One-piece design
- Available with or without plaster skin
- Available prefabricated with special glue – no adhesive residues when removing formwork
- Simple connectors for combinations or opposing boxes
