

Product datasheet:

Oval funnel for M20 conduits

Oval funnel

- for the simple connection of DIN EN conduits with tolerance compensation for wall-wall and wall-ceiling transitions
- for installation on the transition edge
- accepts rigid and flexible DIN EN conduits
- with closing cover to prevent ingress of material

Concrete construction, oval funnel, for 20 mm conduits, with closing cover, 1-piece
Oval funnel for concrete construction installation, precast concrete, adhesive attachment to steel formwork

Oval funnel for connecting rigid and flexible installation conduits 20 mm, made of plastic, can be closed on the formwork side with a closing cover, with tolerance compensation of 2 cm in the longitudinal direction and 1 cm in the transverse direction, for the continuous [EMPTY] fitting of conduits at transitions of precast concrete elements
For installation on side formwork, flame-retardant according to DIN EN 60695 up to 650°C, halogen-free according to DIN VDE 0604-2-100, for precast concrete construction installation

Planning data

Article number:	1261-42
EAN:	4013456533455
Packaging quantity:	100
Price group:	140

Connections / Entries

For conduit Ø:	20 mm
----------------	-------

Assembly / Installation

Assembly type:	BB (solid construction)
----------------	-------------------------

Safety / Properties

Special application:	precast concrete
----------------------	------------------

The oval funnel simplifies the exact joining of prefabricated concrete elements with integrated installation conduits. It guarantees safe conduit entry and provides a tolerance compensation of 1 cm or 2 cm during installation.

- Tolerance compensation when joining the concrete elements
- For industrially prefabricated ceiling and wall elements as well as on-site mixed concrete
- For secure connection of installation conduits on transitions of prefabricated concrete elements
- Precise joining of electrical installation conduits
- Tolerance compensation: 2 cm in longitudinal direction and 1 cm in transverse direction.
