

Product datasheet:

Large slab ceiling box 115

Large slab ceiling box

- For in-factory installation
- Slot for system magnet (Art.-No. 1299-69) and system magnet PLUS (Art.-No. 1299-70)
- Installation height 115 mm, with M5 metal nut for light hook (min. hook length: 115 mm + plaster thickness)
- With closing cover for on-site fitting of conduits
- Maximum light hook load according to DIN EN 60670 100 N (10 kg)

Concrete construction, ceiling junction box, 2-piece, exit opening Ø 60 mm, depth 115 mm, with M5 metal nut for light hook slot

Ceiling junction box for concrete construction installation, precast concrete, fixing to steel formwork using system magnet (1299-69 or 1299-70)

Concrete construction box, designed as a large slab ceiling box in accordance with DIN EN 60670/VDE 0606 and DIN 49073, made of plastic

Installation opening Ø 60 mm, diameter Ø 102 mm, depth 115 mm, closing cover with M5 metal nut for slot for mounting light hooks in accordance with DIN EN 60670 (100N), front part can be swung out, with 2 screw domes

Entry markings for electrical installation conduits (8 x up to 25 mm) and (4 x up to 32 mm) and for cables and electric cables (12 x up to Ø 16 mm), protection class IP 30 according to DIN EN 60529, flame-retardant according to DIN EN 60695 up to 650° C, halogen-free in accordance with DIN VDE 0604-2-100, for concrete construction installation precast concrete

Certificates

Planning data

Article number:	1227-16
EAN:	4013456552647
Packaging quantity:	100
Price group:	130

Dimensions / Form

Product depth:	115 mm
----------------	--------

Connections / Entries

Number of entries:	12
For conduit Ø:	32 mm

Assembly / Installation

Assembly type:	BB (solid construction)
----------------	-------------------------

Safety / Properties

Special application:	precast concrete
----------------------	------------------

Approvals / Certifications

VDE:	Yes
------	-----

The large slab ceiling box is suitable for in-factory installation in prefabricated ceilings. The version with a slot for the system magnet (Art. No. 1299-69) or system magnet PLUS (Art. No. 1299-70) is ideally suited for quick attachment to system magnets that have already been set automatically. The large slab ceiling boxes are already a part of the ceiling when they reach the construction site and enable the quick insertion of empty conduits. The resealable quick-release cover can be opened with a quarter turn and so enables the quick and exact creation of conduit entries using punch pliers (Art. No.

Product datasheet:

1286-33/-34).

- For in-factory installation
- Slot for system magnet (Art.-No. 1299-69) and system magnet PLUS (Art.-No. 1299-70)
- Large adhesive area with rough surface structure for a secure fit on the formwork table
- 115-mm installation height guarantees optimal transport conditions for prefabricated ceilings
- Quick-release cover for fast cutting of conduit entries using punch pliers
- Integrated M5 domed cap nut ensures secure fitting of a light hook.
- With closing cover for on-site fitting of conduits
