

Product datasheet:

Universal extension element 175 to 300 mm for glueing

Universal extension element from 105 mm

- for fitting of overhead one-gang junction boxes at greater heights
- height adjustable in increments of 5 mm

concrete construction, universal extension element for adhesive attachment, 2-piece
 Universal extension element for concrete construction installation, precast concrete, adhesive attachment on steel formwork
 Universal extension element for the installation of overhead B2 one-gang junction boxes, with push-button connection, height-adjustable in 5 mm increments, adjustable from 170 to 300 mm, flame-retardant according to DIN EN 60695 up to 650° C, halogen-free in accordance with DIN VDE 0604-2-100, for precast concrete construction installation

Article number:  **1261-07**

EAN: 4013456254015

Packaging quantity: 50

Price group: 140

Dimensions / Form

Product length: 175 mm

Assembly / Installation

Assembly type: BB (solid construction)

Safety / Properties

Special application: precast concrete

Universal extension element for bridging wall thicknesses of more than 105 mm and supporting one-gang boxes during installation on the opposing formwork. Thanks to the various sizes, heights of 105 mm up to 300 mm (plus box dimensions) can be bridged in increments of 5 mm.

- For installation of overhead one-gang junction boxes
- Height adjustable in increments of 5 mm
- Can be attached to one-gang junction boxes using push-button connection
