

Product datasheet:

Formwork body for DS 90 / 120 mm

Ceiling penetration sealing systems DS 90 / 120 mm and DS 90 / 74 mm

- creates matching component openings
- suitable for ceiling penetration sealing systems DS 90 / 120 mm
- for ceiling thicknesses 150 - 300 mm

Fire protection formwork unit for the ceiling seal system 120 mm, formwork unit for fire protection ceiling seal system for preparatory installation in concrete ceilings, creates suitable component opening for mounting the ceiling seal system in concrete ceilings during concreting, for ceiling thicknesses 150-300 mm, diameter Ø 150 mm

Article number:  **9473-96**

E-No: 121819068

EAN: 4013456544932

Packaging quantity: 6

Dimensions / Form

Product Ø: 150 mm

Safety / Properties

Special application: Fire protection

Assembly instructions

Planning data

KAISER ceiling penetration sealing systems DS 90 / 120 mm and DS 90 / 74 mm ensure that the ceiling maintains fire-resistance class EI30-EI90. To efficiently prevent the spread of fire and flue gases through cable penetrations and electrical installation conduits through concrete or cellular concrete ceilings, their fire sealing must have the same fire-resistance class as the ceiling. The ceiling penetration sealing system DS 90 accomplishes this easily, quickly and reliably.

- Secure, visible, certified fire sealings
- Sealing especially for ceiling penetrations
- Automatic sealing without filling or smearing
- Non-destructive retrofitting
- Also for mixed population of bundles of cables and conduits
- Easy and quick installation from above
