

Product datasheet:

SPECIAL cutter ETICS Ø 20 x 80 mm

SPECIAL cutter for insulating boards

- Making installation openings in existing composite thermal insulation systems or lightweight walls
- Ø 20 mm, for the KAISER mini equipment carrier and for KAISER cable seals
- with depth stop to prevent heat bridges
- with hardened metal centering drill for precise positioning
- fits all battery-powered drills and electric drills with 10 mm chuck
- removable cutter head for easy removal of the drilled core

Article number: **1088-06**

EAN: 4013456536142

Packaging quantity: 50

Price group: 170

Dimensions / Form

Product length: 80 mm

Drill/cut hole Ø: 20 mm

Drilling/cut hole depth: max. 60 mm

Assembly instructions

Retrofitting electrical connections to an already completed, insulated facade is a challenge. The SPECIAL cutters can be used to create installation openings without weakening the external composite thermal insulation system, as insulation is only removed at certain points.

- with depth stop to prevent heat bridges
- Hardened metal teeth enable use even with plastering
- easy removal of the drilled core
