|------------------------------------|-------------------|
| Nominal diameter:                  | 16 mm             |
| Diameter:                          | 16 - 20 mm        |
| Number of cables/conduits:         | 14                |
| With distance to the wall:         | No                |
| Model:                             | Double-lobe clamp |
| Type of fastening:                 | Plug-in mounting  |
| Material:                          | Plastic           |
| Material quality:                  | Other             |
| Surface protection:                | Untreated         |
| Halogen free:                      | No                |
| Suitable in fire resistance areas: | No                |
| Plastic sheathed:                  | No                |
| Colour:                            | Grey              |

Assembly instructions

The new generation of Click-mate NXT distribution boxes is available in various versions: The compact S distribution box with 12 modules, the familiar M distribution box with space for 2 x 12 modules and the innovative L distribution cabinet with 2 x 18 modules; the solution for the energy transition and extensive 3-phase installations. The distribution boxes are also completely modular and can easily be installed next to or underneath each other.
