

Product datasheet:

AK2 Data front part for max. 4 modules

Consolidation Box

- Raised AK2 cover equipped with 4 knock-out ports for the placement of adapters.
- The adapter allows attachment of almost any brand or type of RJ45 connector and can be ordered separately.
- The cover has provisions along the edge to allow easy labelling.
- Front part equipped with break-out openings for adapters to accommodate Keystone modules

Article number: **AT1965**

EAN: 8712259345819

Packaging quantity: 25

Dimensions / Form

Product length: 125 mm

Product width: 100 mm

Product depth: 60 mm

Safety / Properties

Halogen-free: Yes

Material / Colour

Colour designation: Light grey

Approvals / Certifications

VDE: Yes

The Consolidation Box from Attema makes it possible to install ICT cabling in a flexible manner, because the installation is divided into two steps. The largest portion of the work takes place during the rough construction, at the same time as the other cabling is installed in the building. As a result, you only have to install a small portion of the ICT cabling during the finishing phase. The Consolidation Box complies with the installation standards of EIA/TIA 568A/B, ISO 11801 and NEN-EN 50173.
