

Product datasheet:

Blanking plug

Adapters

- Blind cover for sealing an open break-out port in the AK2-D cover after a change or a mistake.
- Blind cover for sealing an open break-out port in the Patch Cabinet after a change or a mistake.
- The blind cover is used to seal any opening behind the dust cap in the Universal Data Box.
- can be used in AK2 Data front parts

Article number: **↻ AT1970**

EAN: 8712259220406

Packaging quantity: 50

Dimensions / Form

Product length: 27 mm

Product width: 28.4 mm

Safety / Properties

Halogen-free: Yes

Material / Colour

Colour designation: Light grey

The Consolidation Box from Attema makes it possible to install ICT cabling in a flexible manner, because the installation is divided into two steps. The largest portion of the work takes place during the rough construction, at the same time as the other cabling is installed in the building. As a result, you only have to install a small portion of the ICT cabling during the finishing phase. The Consolidation Box complies with the installation standards of EIA/TIA 568A/B, ISO 11801 and NEN-EN 50173.
