

Product datasheet:

Reducing sleeve

Flexible conduit

· 19 mm conduit to 16 mm conduit lead-in.

Article number:	➔ AT1290
EAN:	8712259000909
Packaging quantity:	100

ETIM Product classification: Reducing sleeve for installation tubes

Material:	Plastic
Material quality:	Other
Surface protection:	Untreated
Surface polished:	No
Halogen free:	No
Suitable for tube diameter, large:	
Suitable for tube diameter, small:	

Attema has a wide range of flexible conduits for various applications.

Such as ZeroH-flex: halogen-free electroflex, where high(er) demands are made on fire-safe installations. Flame-retardant. KEMA approved according to NEN-EN-IEC 61386-1 and -22. Electroflex for standard electrical applications.

Attaflex, a halogen-free PE-conduit, resistant to higher temperatures and therefore especially suitable for use in concrete. Mantaflex: conduits suitable as thermal insulation material, for central heating or water pipes for instance. Can also be used as a protective hose for electrical connections of machines. And halogen-free Nylonflex, especially suitable for cables in situations where no toxic and corrosive gases may be released in the event of a fire.
