

Product datasheet:

Closure plug Ø 12,5 mm, natural

Flexible conduit

Article number:	⇒ AT2770
EAN:	8712259003153
Packaging quantity:	1000

ETIM Product classification: Closure plug for installation tube

Material:	Plastic
Material quality:	Other
Suitable for nominal tube diameter:	
Size (metric):	
Suitable for rigid tubes:	No
Suitable for flexible tubes:	No
Suitable for pliable tubes:	No
Airtight:	
Pushthrough membrane:	
Colour:	Other

Attema has a wide range of flexible conduits for various applications.

Such as ZeroH-flex: halogen-free electroflex, where high(er) demands are made on fire-safe installations. Flame-retardant. KEMA approved according to NEN-EN-IEC 61386-1 and -22. Electroflex for standard electrical applications.

Attaflex, a halogen-free PE-conduit, resistant to higher temperatures and therefore especially suitable for use in concrete. Mantaflex: conduits suitable as thermal insulation material, for central heating or water pipes for instance. Can also be used as a protective hose for electrical connections of machines. And halogen-free Nylonflex, especially suitable for cables in situations where no toxic and corrosive gases may be released in the event of a fire.
