

Product datasheet:

Conduit sleeve Ø 19 mm

Flexible conduit

- Provide an extremely solid connection without adhesive.
- Suitable for both rigid and flexible conduit.

Article number: **↗ AT2808**

EAN: 8712259003207

Packaging quantity: 500

ETIM Product classification: Coupler for installation tubes

Material: Plastic

Material quality: Other

Surface protection: Untreated

Quality of surface coating:

Surface polished: No

Surface brushed:

Halogen free: No

Suitable for outdoor use:

Model: Extraction proof

With lock function:

Type of lock function:

Suitable for nominal tube diameter:

Two-part:

With inspection opening and cover:

Colour: Other

Material sealing:

With outer thread:

With inner thread:

Separable:

Eccentric:

Attema has a wide range of flexible conduits for various applications. Such as ZeroH-flex: halogen-free electroflex, where high(er) demands are made on fire-safe installations. Flame-retardant. KEMA approved according to NEN-EN-IEC 61386-1 and -22. Electroflex for standard electrical applications. Attaflex, a halogen-free PE-conduit, resistant to higher temperatures and therefore especially suitable for use in concrete. Mantaflex: conduits suitable as thermal insulation material, for central heating or water pipes for instance. Can also be used as a protective hose for electrical connections of machines. And halogen-free Nylonflex, especially suitable for cables in situations where no toxic and corrosive gases may be released in the event of a fire.
