

## Product datasheet:

# Cable fish tape 15 m

## Additional accessories

- Made of nylon.
- Equipped with round head on one side, so can also be used with flexible tube.

**Article number:** [↗ AT11772](#)

**EAN:** 8712259017013

## Dimensions / Form

**Product length:** 15000 mm

## ETIM Product classification: Cable pulling system

|                                  |                   |
|----------------------------------|-------------------|
| Application range:               | Installation tube |
| Material:                        | Plastic           |
| Material quality:                | Other             |
| Colour:                          |                   |
| Width/diameter draw-in wire:     |                   |
| Material thickness draw-in wire: |                   |
| Breaking load:                   |                   |
| Head form:                       | Oval              |
| Cable guide head diameter:       |                   |
| Shape:                           | Round             |
| Thread connection:               |                   |
| Length:                          | 15 m              |
| Carrying type:                   |                   |
| Diameter of coil/ring:           |                   |
| Twisted:                         |                   |

To make the range of installation material complete, Attema certainly also offers a range of installation aids. In all their diversity they have one thing in common: the same practical Attema quality. Attema has it all. From the spectrum probe for locating obstructions in conduits that occur in concrete walls or floors to a large series of end caps for rigid and flexible conduit. From diagram sleeves to conduit sleeves. From conduit couplers and reducing sleeves to cable fish tapes.
